FIN SET-UP: **2 +1 w/FCS side**

FIN SET: **7 5/8" Schaper center
FCS GX sides**

DESCRIPTION FROM DESIGNER

"The latest development from Schaper/Perkins is the 9'1" M2 Model. The M2 is noticeably thinner than the original Bonga with lower volume rails. designed for small to medium-sized surf, the vee and roll have been flattened to create a quicker "out-of-the-gate" feel. This enhancement is combined with our latest rocker and a slightly narrower nose and tail. it's the next step in high-performance longboards."
